I think it will be fine to get USGS input. I don't know if they will have the time/resources to provide the review on our schedule, but there is support for greater USGS involvement in BDCP, and this seems like a good place to start.

Karen – I assume that you know the peers at USGS you want to bring into this and will do so.

I quickly read through the Toxins chapter. It occurs to me that it would be beneficial to get USGS review as well. Have you already planned for that? We would like to consult with our peers at USGS about what advice might be helpful to improve ICF's analysis, which appears from my reading be pretty superficial.

Subject: BDCP: Toxin Appendix

Good evening,

Below is a link to access Appendix D, 'Toxins.' Please coordinate comments on the appendix with Bill Harrell (State reviewers) or Federico Barajas (Federal reviewers). All comments are due to ICF no later than November 4th. Please use the same comment form that is being used for all EA documents. A blank form is provided on the FTP site.

We are currently assembling Appendix C, 'Flow, Passage, Salinity, and Turbidity,' and will be sending it next.

Have a great weekend!

Jennifer
